

Cohen & Steers REIT and Preferred Income Fund

The primary investment objective is high current income. The secondary objective is capital appreciation.

General Information	
Symbol/Listing	RNP/NYSE
Number of Holdings	177
REIT Common/ Preferred & Fixed Income	49%/51%
Total Assets	\$1.1 Billion
Market Price	\$14.15
Net Asset Value	\$15.34
Premium/Discount to NAV	-7.76%
52-Week Market Price Range	\$12.18-\$17.10
Distribution Yield ⁽¹⁾	8.48%
Quarterly Distribution Rate ⁽²⁾	\$0.3000
Inception Date	June 27, 2003

(1) Distribution yield is based on the current annualized distribution rate and the December 30, 2011 market price.

(2) Declared December 13, 2011 and payable December 30, 2011. As portfolio and market conditions change, future distributions may also change.

Distributions are subject to recharacterization for tax purposes after the end of the fiscal year. The Fund is currently paying distributions in excess of its net investment income, which may result in a return of capital. Absent this, the yield would have been lower. See reverse side for additional information.

Leverage Facts	
Leverage (as % of managed assets)	32.0%
% Fixed Rate	70.0%
% Variable Rate	30.0%
Weighted-Average Rate on Swaps	3.2%
Weighted-Average Term on Swaps	2.3 Years

While we do not attempt to predict what future interest rates will be, it has been our philosophy to utilize interest rate swap transactions to seek to reduce the interest rate risk inherent in our utilization of leverage. The use of leverage increases the volatility of the Fund's net asset value in both up and down markets.

Past performance is no guarantee of future results. The rate of return will vary and the principal value of an investment will fluctuate and shares, if sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Returns are historical and include change in share price and reinvestment of all distributions. You cannot invest directly in an index. Performance results reflect the effects of leverage resulting from the Fund's issuance of preferred shares.

Blended Index consists of 50% FTSE NAREIT Equity REIT Index and 50% BofA Merrill Lynch Fixed Rate Preferred Index.

IMPORTANT INFORMATION: The Fund may pay distributions in excess of its net investment company taxable income, and this excess would be a return of capital distributed from the Fund's assets. The estimated composition of each distribution, including any return of capital, will be provided to shareholders of record and is also available at cohenandsteers.com. Please note that these estimates may change substantially by year-end due to portfolio activity and tax recharacterizations, and shareholders will be notified following year-end regarding the final composition of all distributions via Form 1099-DIV.

REITs are represented by the National Association of Real Estate Investment Trusts ("FTSE NAREIT") Equity REIT Index, an unmanaged portfolio representing the Equity REIT market.

The Standard and Poor's 500 Composite Index ("S&P 500") is an unmanaged index of 500 large capitalization, publicly traded stocks representing a variety of industries. You cannot invest directly in an index and index performance does not reflect the deduction of any fees, expenses or taxes.

The BofA Merrill Lynch Fixed Rate Preferred Securities Index tracks the performance of fixed-rate U.S. dollar-denominated preferred securities issued in the U.S. domestic market. Qualifying securities must be rated investment grade (based on an average of Moody's, S&P and Fitch) and must have an investment-grade-rated country of risk (based on an average of Moody's, S&P and Fitch foreign currency long-term sovereign debt ratings).

This fact sheet is provided for informational purposes and is not an offer to purchase or sell the Fund shares.

Shares of many closed-end funds frequently trade at a discount from their net asset value. The funds are subject to stock market risk, which is the risk that stock prices overall will decline over short or long periods, adversely affecting the value of an investment in a fund.
